

Materials and Components supporting Laser Applications

- Active Laser Glass
(neodymium doped, erbium doped)
e.g. APG, IOG, LG
- Silicate based glasses
- Phosphate based glasses

Materials
Active

- Rods
- Plates

Components
Active

- Passive Laser Glasses e.g.
S7010N, S7005, S7000
- Wide range of optical glasses and its
special variants (e.g. SCHOTT N-BK 7®)
- ZERODUR®

Materials
Passive

Components
Passive

- Aspherical Lenses
- Laser Mirrors &
Windows
- Beamsplitter &
Polarizers
- Polished prisms
- Optical Filters
