SCHOTT® Discus
Next generation LED reading light

Product Characteristics

SCHOTT® Discus is a member of the SCHOTT Compact in-seat reading light family and completes the range of small and economic lighting solutions. Its light, slim and elegant design fits perfectly into all kinds of surfaces like seat shells, wall or ceiling panels.

The light can be switched on or off by a soft touch on the central light output. Rotating the crown allows an easy adjustment of the light cone for an individual and personalized illumination.

The technology is qualified for all major passenger aircraft.
