

# ROBAX® with big bending radius (BBR)

The new fire perspective

Angular bent ROBAX® fire viewing panels with a big bending radius provide the best possible, unobstructed view of the fire.

## Your advantages

- See-through bending edge
- Comprehensive, clear view of the fire
- Almost completely natural fire experience

| Technical Data          |                                 |
|-------------------------|---------------------------------|
| Panel height            | 230 up to 800 mm                |
| Bending radius          | 30 up to 95 mm                  |
| Leg length long leg     | 300 up to 720 + R mm            |
| Leg length short leg    | 100 + R up to 590 mm            |
| Glass thickness         | 4 mm                            |
| Recommended application | Wood, pellet and gas fireplaces |
| Shape                   | 1 x 90° angular bent            |
| Decoration              | Yes                             |
| Cleaning                | SCHOTT ROBAX® Dry Wiper         |

Other leg lengths and bending radii on request.
